"This band has the most diverse setlist I've ever heard. From Elton John to Rage Against The Machine, Oasis to Faith No More, Doobies to the Beasties and everything in between. This makes them unique in the cover band scene. Very entertaining!" - Patron at Roc'n Doc's Live Music Grill

Formed in 2017, Sonic Curators record and play live music for the love and fun of the art form and for the enjoyment of those who come out to see us.

With more than 70 live performances under our belt, we deliver diverse, high energy, crowd pleasing shows that are unique from other bands. When playing live, we cover songs from the 70s to the modern era, spanning all genres: rock, pop, rap, blues, metal and funk etc. This diversity of songs is what makes us stand out in the Toronto cover band scene. The **sonic** experience we deliver is carefully selected and **curated** for maximum enjoyment.

We have also recorded two original albums and an album of cover songs. These albums are available for download on your favourite music streaming app: Sonic Curators - Creative Contagion, Welcome to the Pageantry and Run for Cover, all recorded during the COVID 19 Pandemic. Our original music can be described as a mix between classic and modern rock with progressive and adult pop influences.

Based in Toronto, we have played all over the GTA in places such as RocnDocs, Ten Gallon, Fionn MacCools, The Black Swan, The Rockpile, The Horseshoe Tavern, the Linsmore Tavern and many other locations.

We are available to play your venue or event at any time. Contact us directly at: tomorrowisalie2020@gmail.com
